NOTE FOR:

Special Assistant/DCI

FROM: Don I. Wortman
Deputy Director for Administration

SUBJECT: Community Breakfast Topics

Admiral Turner asked that we submit proposed topics for Community-wide breakfasts by the Monday preceding that breakfast. I have two topics to suggest, neither are items that need to be taken up right away.

1) Status of Civil Service Reform of intelligence agencies.

in discussions with OMB, agreed that we should keep tabs on our individual intelligence agencies' positions with regard to the two primary Civil Service Reform thrusts:

a) The creation of a Senior Executive Service (SES), and

b) The adoption of incentive pay for GS-13s through GS-15s.

I suggest that NSA, DIA, State Department, and CIA give individual reports to the DCI as to where they stand on these two initiatives. The primary objective of putting this on the agenda would be for the DCI to assure himself that the individual agencies are not constructing needless barriers to the mobility of executives in the intelligence community. One of the objectives of the SES is to facilitate the mobility of executives throughout the government.

2) Leaks.

I would invite Bob Gambino, as Chairman of the Community Security Committee to lead a discussion about what we are doing about leaks and, hopefully, to provoke some creative thought about what more we can do.

/s/ Don

Don I. Wortman
